Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pains in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was the gentleman from his boyhood, to state that, in my opinion, there are few men who have filled judicial office in this city who enjoy a more general or deserved popular-ity among the bar and people, or who would command a readier sup-Speedily Cured. port, either for re-election or as a candidate for the Supreme bench.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstinate symptoms.

My physician at once ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure. — H. E. Simpson, Rogers Prairie, Texas. This has been shown by his nomination, at the age of 34 years, for circuit judge in 1882, by a vote (on the first ballot) of 149 out of 173 delegates in the Democratic convention, and by his subsequent election by a majority of over 5,-000-the largest given any candidate for that office for more than

Two years ago I suffered from a severe Cold which settled on my Langs. I consulted various physicians, and took the modicines they prescribed, but received only temporary relief. Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my lungs. I had a hacking cough, and was very weak. Those who knew me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York.
